SELECTED PROJECTS

- LANGUAGE LEARNING WEB APPLICATION**

HTML • CSS • JAVASCRIPT

Built a browser-based language learning application with customizable quizzes, spaced recall exercises, and CSV vocabulary imports. Implemented local storage for progress tracking and a modular lesson system. Currently expanding guided learning flows and cloud synchronization.
- LANDING PAGE BLUEPRINT**

Notion • Web Design

Created a step-by-step landing page framework to help businesses craft clear, high-converting pages. Includes fill-in-the-blank templates, writing prompts, and structure guidelines. Available as a digital product.
